LOUIS B. JANVRIN,

REPORT OF LADIES' AUXILIARY OF THE HAMPTON FALLS VOLUNTEER FIRE DEPT.

The Ladies' Auxiliary of the Hampton Falls Fire Department are pleased to report that we've had another very successful year. We wish to thank the citizens of the town for their generosity in contributing to our various projects; food sales, whist parties, etc. A Fire Warden's supper was put on by the Auxiliary and we also sold "stuffed animals." During the course of the year we have purchased the following equipment for the fire department; 369 ft. of hose amounting to \$265.68 and 5 gas masks amounting to \$10.00. We also paid for the "Red Line" telephone each month. We have a goodly balance in our treasury for future needs of the department. We have bought various items to improve the fire station, such as materials for the hand rail, coat rack, curtains and rods, waste baskets, etc. We would be happy to welcome new members to our organization at any time. We meet the first Monday of each month, usually at the Fire Station, however there is always an announcement in the Hampton Union.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Hampton Falls School Board:

I herewith present to you my 26th report as Superintendent of your schools. The current year began on Wednesday, September 7, 1955 with an initial enrollment of 99 pupils. This compares with last year's September enrollment of 93. The first grade this year shows an enrollment of 26. The census taken in September indicates that next year's entering class will be nearly as large. The wisdom of having separate rooms for the first two grades is evident. Since we will graduate a class of 25, it is probable that we shall have an enrollment approximately this year's figure with additions for families who may move into town.

The improvement in the playground is commendable. We have ample space for this service to our children. Much remains to be done. Increased tarvia would continue the usability of the grounds particularly during the winter months. Additional playground equipment can always be used. If this could be made a long term project, the cost to the District yearly might be as little as the members desired.

Under the direction of Mr. Lovering, the Helping Teacher, uniform methods of instruction between the grades has been established. Such procedure results in a more efficient presentation of subject matter to the pupils. Careful analysis of individual pupils has been made with the purpose of adjusting the methods of work to each child. We intend that the individual pupil shall have the opportunity to utilize his strengths to his own best advantage. The fundamentals of reading and arithmetic have been emphasized within a curriculum which must include an ever increasing number of subjects.

Many people do not realize the extent to which the modern curriculum has been broadened. The elementary schools must teach language arts, social studies, mathematics, science, art and music, health, physical education and safety. Each of these must be adapted to the pupils' interests, strengths and weaknesses. Moral and spiritual values must be kept to the forefront. They are considered an essential element of the public school program. The teaching of these values permeates the entire school program. History, biography, literature and other subjects continuously offer opportunities for character education. Today's teachers are alert to utilize these subjects for such purposes. The growing generation is the most precious of our resources. Its talents and abilities must be nurtured and developed to the utmost and its attitudes and loyalties made one of our chief concerns.

A study of the Financial Report for the last completed school year shows that the per pupil cost for the pupils in our own school was \$218.56 for current expenses. If we add to this the capital outlay, that is, debt and interest, this figure becomes \$272.50. The same source shows our per pupil cost for High School attendance to be \$330.08. This figure includes tuition, transportation and per capita costs.

We continue to receive federal aid for our pupils—both High School and Elementary—whose parents work on federal property. Our financial report shows that we received \$2,170.20 from this source during the past school year. The necessary statistics and forms have been sent to Washington. While this aid depends upon Congressional appropriation, it seems likely that we will receive aid for the current year. This money is for tax relief and is deducted from expenditures of the school district.

To the Hampton Falls School Board I wish to express my appreciation for helpful cooperation and advice during the years I have been associated with you. Under your direction Hampton Falls has an attractive school plant. The work of your teaching staff has been proven to be commendable as shown by the developments of the pupils and the type of work which they do in schools to which they advance. The welfare of our pupils is the standard by which all our decisions must be made.

Respectfully submitted,

ROY W. GILLMORE

REPORT OF THE SCHOOL NURSE

As School Nurse, I have visited the Lincoln Akerman School each week, making classroom inspections, and home contacts whenever necessary.

All pupils were weighed and measured and eye examinations given them.

An Audiometer test was also done on every pupil.

Dr. Bailey, School Physician, gave a thorough physical to the pupils in the first, third, fourth, and sixth grades. Any defects found were promptly attended to by the parents.

Thirty-three pupils were given two inoculations of the Salk vaccine, at the Polio clinics held in the spring and fall.

There were many cases of measles, chicken pox and virus during the year.

Respectfully submitted,

Jessie Mansourian, R. N.
